PROFESSIONAL SUMMARY

Innovative and results-driven Security Operations Specialist with a strong foundation in Cybersecurity, cloud security, Secure Software development, IT support, data analytics. Skilled in designing secure, scalable, and user-centered digital solutions while maintaining high standards of performance, usability, and system integrity. Passionate about leveraging technology to solve real-world problems and continuously building expertise in modern IT and security practices.

PROFESSIONAL EXPERIENCE

IT Intern

Ministry of Agriculture and Livestock Development – Nairobi, Kenya

May 2024 – Aug 2024

- **Security Monitoring:** Implemented Cybersecurity best practices across the department, focusing on user access control and threat prevention.
- **Log Analysis & Support:** Provided IT support for hardware and network systems, gaining hands-on experience in identifying and troubleshooting system anomalies.
- **Data Integrity:** Validated and cleaned large operational datasets, ensuring data accuracy and system integrity for government-level reporting.
- **User Training:** Conducted "Safe Digital Behavior" workshops to mitigate human-centric risks like Phishing a key responsibility for a SOC Analyst.

Freelance IT Support and Systems Projects

Remote |

Sep 2023 – Present

- **Infrastructure Management:** Configure network setups and cloud backup solutions for SMEs, ensuring 100% data availability and disaster recovery readiness.
 - **Identity & Access Management (IAM):** Manage user access controls and authentication protocols to prevent unauthorized system entry.
 - **Security Research:** Authoring technical blog posts on emerging Cybersecurity practices and threat landscapes to educate the community and track evolving attack vectors.
-

EDUCATION

Bachelor of Science in Computer Science

- St. Paul's University, Limuru, Kenya – Nov 2024

Diploma in Computer Science

- St. Paul's University, Kiambu, Kenya – Nov 2021
-

CERTIFICATIONS

- Cyber Security Analyst Certification (Cyber Shujaa) – Apr 2026
- Cloud Security Certification (Cyber Shujaa) – Sep 2025
- Microsoft AZ-500 (Coursework) – Sep 2025

- Microsoft Certified: Security, Compliance, and Identity Fundamentals (SC-900)(Cyber Shujaa) – May 2025
 - Linked In Learning: Cybersecurity Threat Landscape (Linked) – May 2025
 - Cisco Certified Ethical Hacker – Jan 2025
 - Introduction to Cybersecurity – Nov 2024
-

TECHNICAL SKILLS

Cybersecurity Tools and Concepts:

- Security Analyst, Pentesting, Metasploit,
- Wireshark, Burp Suite, Nmap, Vulnerability Assessment,
- OWASP Top 10, Threat Detection, Risk Management, GDPR Awareness

Cloud Infrastructure and cloud security:

- Microsoft Azure, AWS Cloud, Cloud Security, Identity and Access Management (IAM), Virtual Machines, Power BI Service

Programming & Mobile Application Development:

- JavaScript, Python, PHP, HTML5, CSS3, React, React Native, Node.js, Django (Basics)

Networking Basics:

Dns, TCP/IP, HTTP

Operating Systems & Tools:

- Windows, Linux (Ubuntu, Kali), VS Code, Git, GitHub, Power Automate, Microsoft 365, Google Workspace

SOFT SKILLS

Analytical Problem-Solving, Cross-Functional Collaboration, Adaptability and Continuous Growth ,Ethical Integrity and Professionalism

PROJECTS ([GitHub](#), [Portfolio](#))

Cybersecurity Lab Environment

- Conducted ethical hacking simulations using Kali Linux, Metasploit, and Burp Suite.
- Focus:** Ethical Hacking and Incident Triage.

Cloud Infrastructure Security Setup

- Configured secure Azure and AWS environments with monitoring policies and role-based access control.
- Developed a disaster recovery plan with cloud backup and compliance monitoring.
