

Microsoft ADC Cybersecurity Skilling Program

Week 4 Assignment

Student Name: ALEX EVANS NJIRU MBOGO

Student ID: adc-css02-25064

Introduction

This week I worked through the SC-900 Learning Path: Microsoft Security, Compliance, and Identity Fundamentals: Describe the data governance solutions of Microsoft Purview

It consisted of 2 modules:

- Describe the concepts and benefits of data governance.
- Describe key features of Microsoft Purview Data Catalog.

Tasks Completed

Describe the concepts and benefits of data governance.

In this module we explore basic governance as a defense mechanism to make sure your data is secure and compliant and also to make your data more visible to users.

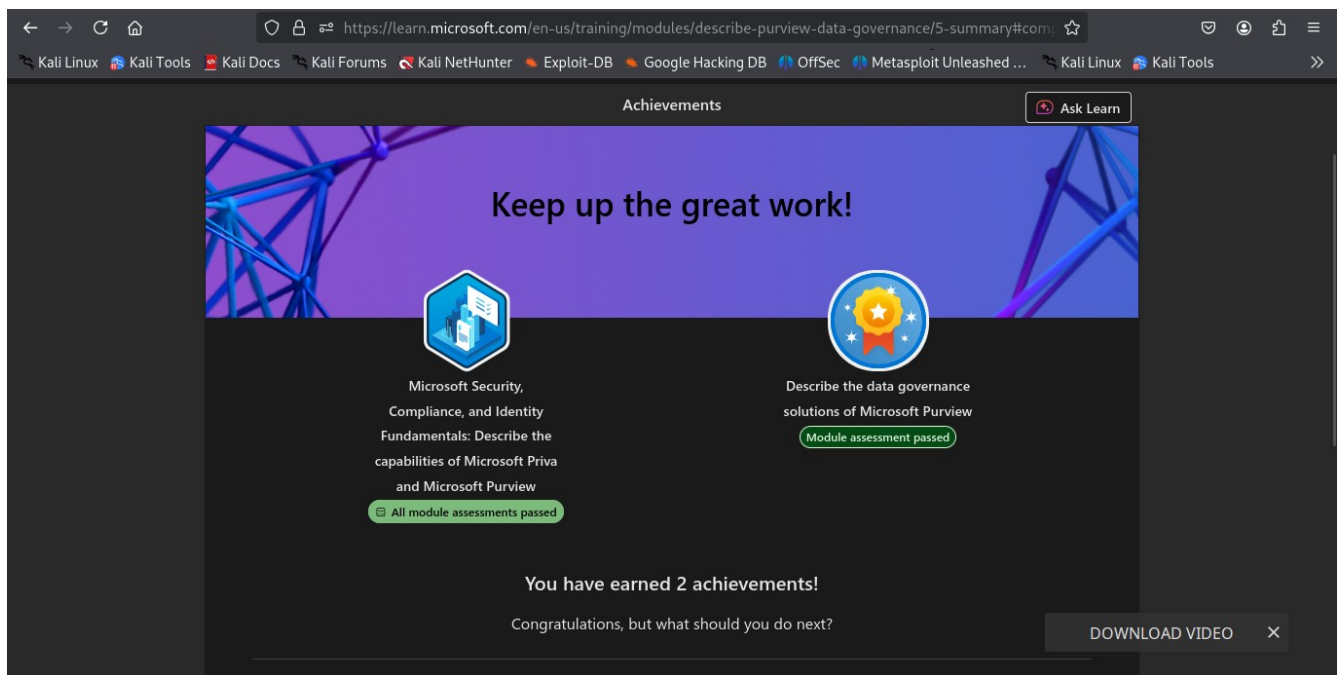

We go through basic data Governance concepts such as:

- Federation governance
- data access
- data curation
- data health And other concepts.

Describe The Microsoft Purview Data Catalog

its goal is to provide a platform for data governance and to drive business Value creation in your organizations through

- Governance Domains
- Data products
- Glossary terms
- OKRs
- Data access polices and other capabilities
