## **What is DNS?**

DND provides a simple way for us to communicate with devices on the internet without remembering complex numbers.

## **Domain Hierarchy**

TLD is .com

a .com would be for commercial purposes, .org for an organization, .edu for education and .gov for government.

## **Second-Level Domain**

[tryhackme.com](https://tryhackme.com)

## **Subdomain**

admin.tryhackme.com the admin part is the subdomain.

Answer the questions below

40/253 Points Earned!  
Levelling up in progress...
