

Level 5

Title: Information Disclosure via Password Reminder Function

Analyst: Alex Mbogo

Target: Hack This Site

Approach:

- Reviewed functionality of password reminder feature
- Triggered reminder mechanism
- Intercepted or analyzed response to retrieve password

Finding:

- Password exposed through insecure reminder functionality
- System leaks sensitive information without proper verification

Lesson:

- Avoid exposing passwords via email or automated scripts
- Implement secure password reset mechanisms instead of retrieval

Disclaimer: For educational purposes only
